

12. Adjustment

Note: It is recommended to adjust the columns to the desired height before installing the display.

Maintenance

- Check if the bracket is secure and safe to use at regular intervals(at least every three months).
- Please contact your distributor if you have any questions.

Requirement for Installation

Component Checklist

IMPORTANT: Ensure that you have received all parts according to the component checklist prior to installation. If any parts are missing or faulty, contact your place of purchase for a replacement.

Package M

1. Installing the Wheel Caster

Note: Each caster can be adjusted independently for fine tuning. Slightly turn the nut to lower or raise the base.

2. Adjusting the Columns

The line on the column indicates the highest position for height adjustment.

3. Attaching the Driving Rod to the Two Columns

Attach the handle to the column marked with "1".
Attach the handle to the column marked with "2".
Turn the handle to make the inner column run upwards to the highest position.

NOTE: With the "1" and "2" mark facing forward.

3. Attaching the Driving Rod to the Two Columns

Adjust the hexagon bar and make the ends of it keep 40mm from the driving rod then tighten the screws to secure.

Attach the driving rod to the two columns.

4. Attaching the Columns to the Base

Attach the columns to the base using the screws.

5. Installing the Crossbar

Attach the crossbar to the columns with the appropriate screws. Tighten all screws using a proper Phillips screwdriver.

Press the metal tab to lock the caster.

When the crossbar installation is completed, tighten the bottom screws using an Allen key.

6. Installing the Universal Plate

Attach the universal plate to the columns with the appropriate screws, washers and butterfly nuts. Tighten all screws and butterfly nuts.

7. Adjustment

Use the handle to adjust the columns to the desired height and secure using the appropriate screw.

Tighten the screw Q to fix the crank handle, to prevent loosening of the handle leading to a accidental height adjustment.

8. Installing the Adapter Brackets

8a. For Flat Back Screens

M-A		M-B	

8b. For Screens with Irregular Back

M-C		M-D	
M-E		M-F	
M-G		M-H	

Note: Choose the appropriate screws, washers and spacers (if necessary) according to the type of screen.

- Position the adapter brackets as close as possible to the center of the display.
- Screw the adapter brackets onto the display.

⚠ Tighten all screws but do not over tighten.

9. Hooking the Display onto the Universal Plate

10. Installing the Camera Shelf

11. Installing the DVD Shelf

Install the support bar to the columns at the desired position and secure using the appropriate screws.
